

**Maurizio Bozzi** received the Ph.D. degree in electronics and computer science from the University of Pavia (Italy) in 2000. He held research positions with various universities worldwide (including the Technische Universität Darmstadt, Germany, the Universitat de Valencia, Spain, and the École Polytechnique de Montréal, Canada). He was a Guest Professor at Tianjin University, China (2015-2017) and a Visiting Professor at Gdansk University of Technology, Poland (2017-2018). Currently he is a Professor at the University of Pavia.

His main research interests concern the computational electromagnetics, the substrate integrated waveguide technology, and the use of novel materials and fabrication technologies for microwave circuits.

Prof. Bozzi is an elected member of the Administrative Committee of the IEEE Microwave Theory and Techniques Society (2017-2019), and he was a member of the General Assembly of the European Microwave Association (2014–2016). He was an associate editor for the IEEE Microwave and Wireless Components Letters, the IET Electronics Letters, and the IET Microwaves, Antennas and Propagation. He was the General Chair of the IEEE MTT-S International Microwave Workshop Series-Advanced Materials and Processes (IMWS-AMP 2017), of the inaugural edition of the IEEE International Conference on Numerical Electromagnetic Modeling and Optimization (NEMO 2014), and of the IEEE MTT-S International Microwave Workshop Series on Millimeter Wave Integration Technologies in 2011.

Maurizio Bozzi is a Fellow of the IEEE (class of 2018). Moreover, he received several awards, including the 2015 Premium Award for Best Paper in IET Microwaves, Antennas & Propagation and the 2014 Premium Award for the Best Paper in Electronics Letters.
